"Peer Networking and Education on a Global Scale for Families of Substantial Wealth."

Since 1997 Campden Wealth has operated at the forefront of innovation and best practice in the global private wealth community. Its family business, office, wealth and investment conferences held in key cities around the world, its flagship publications, *CampdenFB* (Family Business) and *CampdenFO* (Family Office) together with its proprietary research, have all informed and facilitated dialogue amongst families of substantial wealth.

In 2011 Campden enhanced its global reach with the acquisition of the Institute for Private Investors (IPI), the leading pre-eminent US membership network of significant private investors, founded in 1991 and with the establishment of Campden Family Connect PVT. Ltd, a joint venture with the Patni family in Mumbai, India in 2015.

Operating from its integrated global platform, Campden focuses on providing today's private wealth community with:

- Global networking opportunities through private events and online through Memberlink[®]
- Knowledge support through proprietary research and publications
- Generational education in association with globally renowned Universities & Business Schools

I will never be one to spend my life studying the nuances of finance, but the Campden meetings have given me the knowledge and education to know the right questions to ask, avoid costly mistakes and make better decisions.
